Figures

Document ID=10063319

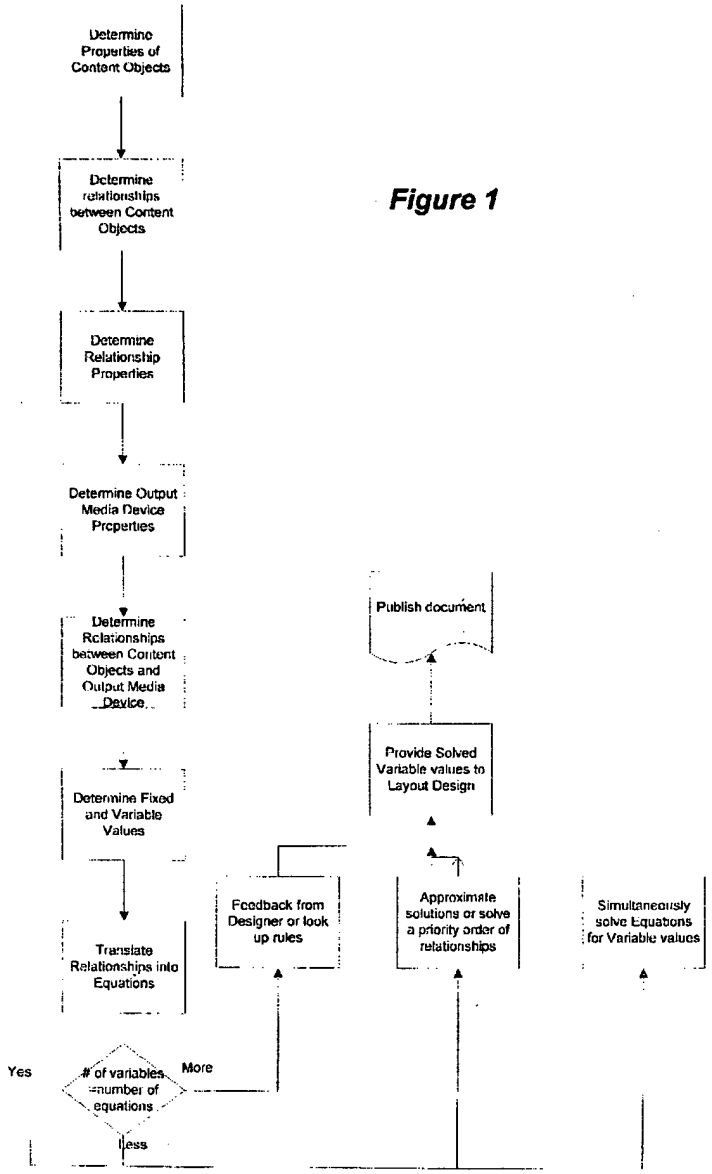

Determine Properties of Content Objects
Determine relationships between Content Objects
Determine Relationship Properties
Determine Output Media Device Properties
Determine Relationships between Content Objects and Output Media Device
Determine Fixed and Variable Values
Translate Relationships into Equations
Yes
of variables =number of equations
More
less
Feedback from Designer or look up rules
Approximate solutions or solve a priority order of relationships
Simultaneously solve Equations for Variable values
Provide Solved Variable values to Layout Design
